PRICE THREE CENTS

X-KEYS HOTEL WILL BECOME CHURCH HOME

Announcement was made today of the purchase of the Cross Keys hotel, near New Oxford, by the Southern district of the Church of the Brethren to be used as a home for the aged.

E. E. Baugher, Hanover, head of the committee in charge of the purchase, was to meet with Frank B. Snyder, Harrisburg, present owner of the hotel, this afternoon to complete the transaction.

It was authoritatively reported the purchase price was \$66,500, which includes 18 acres of land, furnishings and equipment with the exception of the bar and leased property.

Representatives of 28 of the 33 Brethren churches in York, Franklin, Adams, Perry and Cumberland counties, at a special meeting last week in Carlisle, voted approval of a committee recommendation to buy the 14-bedroom structure.

Church delegates approved remodeling up to a cost of \$40,000 to double the capacity of the building. It is estimated that 60 persons, or more than twice the number formerly housed at Hunsdale, Cumberland county, can be accommodated as the building now stands.

The Hunsdale building was damaged beyond repair by fire in December, and the 26 guests have since been scattered with relatives and in other temporary quarters. For some time prior to the fire, there was a constant waiting list of persons who could not be accommodated.

A church spokesman said the property includes 18 acres of land besides the brick building which was found to be in good condition.

The structure is now used mainly by Snyder to rent to week-end parties, for special banquets and meetings.

Possession is expected to be given about June 30.

MAGAZINE SAYS "BRASS HATS" GO UNDERGROUND

Pathfinder magazine this week adds its interpretation of what is happening at the Beard Lot near Fountaineau in a story titled "The Brass Hats Go Underground — Pentagon No. 2 Hides in a Pennsylvania Mountain."

The story is illustrated by a picture of the Fountaineau area with the title "Shadow Pentagon. There'll Be a Big Hiding Place Up There," and by a drawing of the Beard Lot, named the Raven Rock Mountain by the army, listing the elevation of the lot as 1,527 feet.

The story states that "the subterranean center will be the telecommunications hub of the free world."

It quotes "local observers" as saying that the finished chamber will be 2,100 feet long and will have four suites for top officials, and adds that a staff of 1,200 will be in the underground center in peacetime and 5,000 in wartime.

"Seeking Airfields"

Pathfinder also claims the army is seeking airfields near the project and plans to place most of its workers for the underground center at Camp Ritchie.

The magazine adds that the "little Pentagon" has gained in importance since the Congress shelved plans to disperse government workers at four spots around Washington. It quoted General Marshall as telling 140,000 defense workers "we must be prepared to operate at locations removed from Washington."

General Marshall is said to have announced that 20 assembly points have been selected outside Washington where workers will be assigned, but added that the general didn't name the spots. Pathfinder argued that "it took little guesswork to conclude that the one permanent installation which would bind together these wide-sprawl, makeshift HQs would be the bombproof burrow hallowed out of Raven Rock."

AUTOS COLLIDE

Two automobiles were damaged in a collision on Main street, McSherrystown, Friday afternoon at 4:50 o'clock. No one was hurt. Chief of Police Manard Masemer, McSherrystown, reported that Bernard Noel, 609 North street, McSherrystown, was driving east on Main street when he slowed his car as a machine in front of him reduced its speed. A car operated by Mrs. Charles Yingling, Gettysburg R. 5, struck the rear of the Noel car, the officer said. Damage to the Yingling auto was placed at \$135, to the Noel car at \$15.

DATE IS SET TO SETTLE ACTION

The Adams county court Saturday set June 11 at 10 a.m. as the time for a hearing on a petition to compromise action, to allow counsel fees and expenses and direct distribution in the action in trespass brought by J. J. Matson and Charles Terry Matson, Gettysburg R. 1, against George R. and Mary G. Mueller, Chicago, Ill.

The sum of \$2,600 is listed as the settlement for injuries to Charles Terry Matson suffered April 21, 1950, on the Gettysburg-Littletown road when the child was disembartering from a school bus and Mrs. Mueller, who was driving her husband's car, passed two trucks that had stopped for the bus, and struck the child, according to the petition.

The petition states that the Matson youngster suffered a deep laceration of the scalp and fractures of two bones of the leg. It added that he has completely recuperated from the injuries. Hospital fees are listed in the petition at \$278.45.

Charles Wolf is attorney for the Matsons.

Eugene Hartman was appointed master in the divorce action of Anna Zarubova White, Guernsey, against Jesse Clay White, of Gettysburg R. 5. Harry M. Hockenberry was appointed auditor in Latimore township to succeed James Hockenberry, who resigned.

Bonds of Clarence J. Rausher, tax collector in Butler township, and John Peeser, tax collector in Union township, were approved by the court.

MOORE AWARD PRESENTED TO TWO STUDENTS MONDAY NIGHT

Two Pennsylvania boys — Allan W. Holman, Jr., Hazleton, and H. Richard Knippel, Hanover — were revealed as the first winners of the Franklin Moore Award of Gettysburg college at a dinner tendered in their honor Monday evening by Henry M. Scharf, manager of Hotel Gettysburg.

Dr. Henry W. A. Hanson, president of the college, in announcing the co-winners said formal presentation will be made at the commencement exercises of the college Sunday, June 3, and added:

"This award comes to you boys not only for what you have been and are, but for what your Alma Mater expects you to contribute to the world after you have left the campus."

"It is a distinct pleasure to award you this recognition because of the fine caliber of the man in whose honor The Franklin Moore Award has been created."

Committee Makes Selection

Holman and Knippel were selected as the students who in their four undergraduate years have shown "the highest degree of good citizenship and who by their character, industry, enterprise, initiative and personal activities have contributed the most toward campus morale and the prestige of Gettysburg college." Selection was made by a committee consisting of President Hanson, Dr. W. E. Tilberg, dean of the college; Charles R. Wolfe, college registrar, and Lee E. Snook, president of the student body.

The Franklin Moore Award was created last year by 81 contributors, comprising nationally known hotelmen and leading business and professional men of Harrisburg, in honor of Mr. Moore when Gettysburg college conferred upon him the honorary degree of Doctor of Science in the field of Business Administration. The fund totals \$6,500 and the trust agreement provides that the entire income shall each year, in perpetuity, be paid to the member of the graduating class selected by the committee as having exhibited the highest degree of good citizenship and having made the greatest contribution to campus morale and the prestige of the college.

Hickenlooper Says Vandenberg Should Resign Or Be Removed

Washington, May 29 (AP) — Gen. Hoyt S. Vandenberg, testifying in the Senate's MacArthur inquiry, came under sharp fire today from Senator Hickenlooper (R-Iowa) who declared that Vandenberg has been just as critical of Korean policy as Gen. Douglas MacArthur ever was. Hickenlooper said it raised the question of whether Vandenberg should resign or be removed as air force chief of staff. Vandenberg in return denied that he had disagreed with any United Nations policy as to Korea.

He acknowledged writing in a magazine article last May that U. S. air power was made just about useless "when the United Nations in an effort to avoid a diplomatic rupture with the Chinese Communists halted offensive action at the Yalu river."

Donations of \$150 toward the Boy Scout drive for capital funds for development of Camp Tuckahoe and \$50 toward the retail merchants' information booth here were voted Monday evening by the board of directors of the Gettysburg Rotary club following the regular meeting of the club at the YWCA.

Stanley Hull, local electrical contractor and a member of the club, spoke on the development of electricity in a classification talk.

Removal of electricity from the scene of our present day life would put our civilization back more than 100 years, Hull noted. "Nearly everything that marks our civilization today uses electricity in some way. The airplane and the automobile are sparked by electricity, lights are used on both cars and planes. Our homes, our offices, and our plants are lighted by electricity, and to a large extent powered by electricity. We use vacuum sweepers, washers, irons, hundreds of items operated by electricity."

"While electricity was known in India and China thousands of years ago, it was not until recent years that we harnessed and utilized it. The name electricity came into prominence in the reign of Queen Elizabeth. Dr. William Gilbert, the queen's physician, was experimenting with use of a rod and amber to make sparks and gave the name electricity from the Greek word for amber."

"There were many who experimented with electricity in the 18th century. The Leyden jar was invented; Benjamin Franklin used a key on a kite to obtain electricity from the air; Sir Humphrey Davis began his experiments. Actually (Continued on Page 3)

Tokyo, May 29 (AP)—Communist troops fighting stubbornly from their own hills today slowed the United Nations advance into Red Korea.

Two Chinese divisions were wiped out in a four-day battle on the central front, south of the 38th Parallel. The U. S. Eighth Army said the Chinese lost 18,000 men—killed, wounded or captured—in the single battle.

Smaller, but equally stubborn fights raged across Korea north of 38. Allied troops were held to limited gains. Stiffest action was in the center of the peninsula where U.N. troops tried to seal off all Hwachon reservoir.

Task Force Stymied

South Korean troops were strung along the south bank of the reservoir about four miles east of the dam-site. U. S. Marines were on the western end. American infantrymen fighting through strong opposition gained one mile Tuesday in their drive to reach its eastern end.

A delayed and heavily censored dispatch from A.P. Correspondent Tom Bradshaw said a powerful U.N. task force bogged down Monday northeast of Inje.

"Allied casualties in Inje itself were heavy," Bradshaw reported. Reds poured sporadic fire from the surrounding hills into the town—"a leveled area of mud huts interspersed with dead Chinese and horses."

"The ungodly smell of dead flesh" hung over Inje. "And along the streets of the town lay bodies of Chinese Communists so battered by the passing vehicles that they could hardly be recognized as human beings."

Bradshaw reported the task force had rumbled across the bodies in the night "with a dull crunching of human bones."

Reds lining the hills northeast of the town slowed the tanks to a crawl with a series of road blocks and heavy mortar and automatic weapon fire, and finally halted it.

Other armored units ran into the same trouble as they headed northwest toward Yangju, 10 miles away on the end of Hwachon reservoir. A.P. Correspondent Jim Becker reported Americans jammed out one mile Tuesday against rugged opposition.

An officer said he thought an entire Red division blocked the road toward Yangju.

Fierce Marine Fights

South Koreans advanced to the southern banks of the 20-mile long reservoir.

At its western tip U. S. Marines were engaged in sharp, fierce fights with Red Koreans east, west and north of the town of Hwachon. Hwachon is the central spearhead of the 125-mile U.N. battleline.

Communist troops threw up stiff defenses against every other U.N. penetration to the west.

On the western front, armored patrols Monday probed through Yonchon, six miles north of 38 and 35 miles north of Seoul. But when infantry moved up Tuesday they found Communists on the hilltops everywhere. The Reds opened up with 76-mm. field guns and an artillery battle flared.

A.P. Correspondent John Randolph reported these Reds apparently were fighting to block Americans from their Chorwon assembly area.

Nasty hill fights developed all along the front.

STARTS NORTH POLE FLIGHT

Oslo, Norway, May 29 (AP) — Air-liner Capt. Charles Blair started a non-stop solo flight over the North Pole today in the converted P-51 Mustang fighter in which he set the non-stop New York-to-London record last January 31.

Fairbanks, Alaska, is his destination. Carrying his first polar airmail — 3,000 letters — Blair took off from Oslo's Gardermoen air base. He planned to land at Bardu, in northern Norway, for refueling this afternoon, then leave immediately on the non-stop of 3,300 miles across the top of the world.

Blair, 41-year-old Pan American Airways veteran from Port Washington, N. Y., again is flying the Excabitor III, the single seated fighter in which four months ago he crossed the Atlantic in seven hours and 48 minutes. That hop smashed all records for the New York to London crossing.

The letters he carried today will be auctioned in New York for the benefit of the Damon Runyon Cancer fund.

From Fairbanks, Blair plans to fly non-stop to New York.

Blair took off from Oslo at 10:19 a.m. (4:19 EST) and is due to leave Bardu at 3:30 p.m. (9:30 a.m. EST).

MOORE AWARD

(Continued from Page 1)

Dr. Hanson told of the ideals and objectives of Gettysburg college to develop the type of character in its young people that is necessary to enable them to take their place in the world with the capacity and ability to serve mankind and ultimately provide the type of leadership that is required.

He praised the intent and purpose of the Moore Award and paid tribute to the man in whose honor it was created.

Dr. Moore modestly questioned his right to the tribute of the award created in his honor but said he was tremendously impressed with Gettysburg college, its administration and the student body. He gave a brief analysis of world conditions, drawing on his travels abroad and his wide international connections as president of the Inter-American Hotel association.

"America alone remains as a free country and the retention of our freedom depends on an educational system such as prevails at Gettysburg college—which has as its basis Christian ideals and Christian principles which uphold alike individual rights and individual responsibilities."

Mr. Moore was presented with autographed portraits of the winners.

Those attending the dinner at the Hotel Gettysburg were: Dr. Hanson, Dr. Moore, Dean Tilberg, Charles R. Wolfe, of the college; Lee Snook, president of the student body, and Rev. Robert B. Rau, administrative assistant to Dr. Hanson. James A. The Eagles softball team came close to winning its first game of the season Monday evening in the local league but yielded six runs to the Stanton Legion in the last two frames and eventually lost 12-8.

After the legionnaires had pushed over six runs in the second frame the legionnaires rallied to take an 8-6 margin at the end of five frames. Miller pined a homerun for the losers while Penn secured three hits for the winners.

In the nightcap the Texas Lunch also was forced to come from behind to defeat the Elks 13-6. Four runs in the fifth and five more in the seventh gave the lunchmen the decision. Timbers and Himes each hit for the circuit for the Texas Lunch. Dillman secured two of the Elks' six safeties.

CHARLES AND MAXIM READY

Chicago, May 29 (P)—Ezzard Charles and Joe Maxim, both declaring they have reached the best condition of their fighting careers, match physical armor tomorrow night in a scheduled 15-round heavyweight title showdown at Chicago stadium.

The scrap will mark Charles' eighth defense of his heavyweight championship in 23 months. It will be Maxim's first big bout since he displayed a surprising hard right to kayo England's Freddie Mills for the light-heavy crown 16 months ago.

Not since Georges Carpentier and Jack Dempsey met more than 25 years ago have kings of the light-heavy and heavyweight ranks tangled for the big title.

The barometer of odds is inching downward from 5-2 favoring Charles to 8-5. The 29-year-old Cincinnati champion, who has won 70 fights, 45 by knockouts, is expected to be favored over 28-year-old Maxim 3-1 by ringtime. These will be the shortest odds for a heavyweight title go since Ez defeated Joe Louis last September as a 2-1 choice.

Maxim is expected to tip 181 pounds, two lighter than Ez. Maxim, the Cleveland Comet who never was noted as a challenger until his tiger-like tactics against Mills, has a record of 75 victories, 20 by knockouts.

Boxing Picture Brightens In Pa.

Harrisburg, May 29 (P)—The picture brightened today for the sport of boxing in Pennsylvania, which faced a boycott by the New York Boxing Managers' Guild.

The New York group had ordered a boycott against all Pennsylvania fight programs until fighters performing on a card at nearby Hershey on May 5 were paid.

The card, which included featherweight Sandy Saddler, was poorly attended and brought in only \$3,600. That wasn't enough to pay off the two main contestants. Saddler had been guaranteed \$3,000 and his opponent—Harry LaSane of Houston—\$1,750.

The State Athletic commission announced settlement of the financial snarl after a day-long conference in the State Attorney General's office yesterday. John (Ox) Dagrosa, a member of the athletic commission, said promoter Francis Leib had agreed to take care of the money.

FAST COMPANY IS ENTERED AT INDIANAPOLIS

Indianapolis, May 29 (P)—Faster engines and sleeker automobiles, plus the lure of \$200,000 in prizes, produced the swiftest of all fields for the 500-mile race tomorrow at the Indianapolis motor speedway.

Speediest of the 33 drivers to qualify, Walt Faulkner of Long Beach, Calif., did his 10-mile qualifying test at 136.872 miles an hour, and the slowest, Hal Mackey of Indianapolis, did 131.473. Twenty of the cars that qualified in 1950 were slower than that.

The qualifying average was 133.570, compared to 131.045 in 1950.

Costly Cars Favorites

If there are any favorites in this speed-saturated field they are Chet Miller and Duke Nalon, making up the Novi team in cars that reputedly cost \$150,000 each. Others highly regarded are Johnny Parsons, the 1950 winner; Mauri Rose, twice a winner and holder of an additional co-championship, and, of course, the tiny Faulkner.

The weather was chilly and blustery for yesterday's final qualifying runs—postponed from Sunday by rain—but the forecast for tomorrow was fair with only occasional clouds. Race drivers dread wind that often whips the tiny cars out of control, and the race would be halted if rain makes the track slick.

This race is a strange and hazardous pursuit of fame and money. Only 33 cars can start, and this year 35 others were shut out. Their owners spent thousands and got nothing. The cheapest car racing probably costs \$25,000, and shipping costs, plus gasoline, tires, and a pit crew makes even a qualifying run cost an additional several thousand.

Threat Of Death

Only the winner can hope for substantial rewards—perhaps \$50,000 in prizes. However, Wilbur Shaw, a three-time winner, and now the speedway president, says victory here should be worth \$150,000 to any enterprising man — advertisements, endorsements, appearances, and so forth.

Overshadowing the race is the ever-present threat of death. Since the track opened in 1909, 42 persons have been killed counting both drivers and spectators. Undoubtedly many of the more than 100,000 spectators expected tomorrow are drawn by the fascination of danger.

The race starts at 11 a.m. (EST) and ends about four hours later when Loretta Young from Hollywood will kiss the victor, a pleasant tradition.

Sports Roundup

By HUGH FULLERTON, JR.

New York, May 29 (P)—Chicago newspapers already have begun speculating on the possibility of the first Windy City World Series since 1906. . . . And why not? They can't quite figure how both the White Sox and Cubs got up there in contending positions, so it's hard to figure why they shouldn't stay up there. . . . Bobby Riggs' pro tennis championship at Forest Hills will be the first event in the big stadium in which the West Side tennis club hasn't shared in the promotion. . . . Omaha backers of the college World Series are doing a terrific job of promoting the tournament as "the Rose Bowl of college baseball."

DOUBLE TAKE

This one had Ohio-Indiana league fans thumbing their rule books without finding anything. . . . In a game between Marion, O., and Richmond, Ind., the score was tied when Marion's Bob Marciniec came to bat in the ninth. . . . Plate umpire Ted Groves called the first pitch a ball and the second a strike. . . . Then Richmond Manager Ralph DiLullo charged out and claimed the batter had tried to bunt the first pitch. . . . Groves conferred with base umpire Tom Kennedy, then changed his first call to "strike." . . . Marciniec then hit into a double play, Marion eventually lost the ball game and when Manager Elmer Yoter entered a protest, it was denied by league proxy Frank Colley. . . . Seems nothing in the book says an ump can't change his decision if he wants to make himself look bad.

ALL-STAR GAME FOR BRUSHTOWN ON JULY 4TH

Brushtown's new playing field was selected as the site for the annual All-Star game of the South Penn Baseball league on July 4, at a meeting of league officials Monday evening at the American Legion home.

The game is staged each year for the purpose of raising funds for injured players.

One team will be composed of players from Granite, Gettysburg, Greenmount and Bonneauville, and the other from stars of Huntersville, Green Springs, Brushtown and Barlow.

Final rosters for the current season were also approved at Monday's meeting.

Rogers Herr, secretary, presided at the meeting which was attended by representatives of all teams.

Interstate League

Hagerstown is out to run its victory streak to 12 games and at the same time take a firmer grip on first place in the Interstate league.

All four games scheduled for Monday night were rained out.

Hagerstown meets York again tonight. The Braves defeated the White Roses Sunday, but could not improve on their slender two and a half game margin over Lancaster. The second-place Red Roses won, too, shutting out Allentown. Lancaster is set for another game with Allentown.

The other games scheduled for tonight are Wilmington at Salisbury and Sunbury at Harrisburg.

KUMP IS WINNER

Ronnie Kump, Cashtown, yielded but one hit as he pitched idaville to a 4-0 victory over Mt. Holly Springs Monday in a Cumberland Valley league game.

CHISOX TOPPING AMERICAN LOOP 1ST IN 30 YEARS

By JOE REICHLER

(Associated Press Sports Writer)
For the first time in 30 years, Chicago's White Sox are able to look down upon the entire American League—and that includes the world champion New York Yankees.

A momentous 4-2 homecoming victory over the St. Louis Browns last night, before 23,138 whooping fans, zoomed the Pale Hose to the top. It climaxed a spectacular 12-game winning streak, all but one on the road.

Naturally, the Sox needed outside assistance. And they got it when the Red Sox nosed out the Yankees, 3-2, in Boston.

Threw Two-hitter
Victorious in 18 of their last 20 games, the Sox today hold a 24 percentage point bulge over the Yankees—727 to 703.

Saul Rogovin threw a two-hitter at the Browns as his mates clubbed loser Duane Pillette for eight of their nine hits and all their runs in five innings.

Mei Parnell, Red Sox ace southpaw, surrendered nine Yankee hits but was tough in the pinches to register his fifth victory, two of them over the Yankees.

Reasonably rapid Robert Feller spun himself another shutout, his second in succession, as Cleveland whipped the Tigers in Detroit, 9-0.

The 32-year-old righthander, who shut out Washington with two hits in his last appearance, yielded six hits and struck out three. It was his sixth victory against a lone defeat.

Phil's Loss Another

The Indians collected 15 hits off loser Ted Gray and company including a home run by Luke Easter.

Brooklyn retained its two and a half game edge in the National League race, shading the Phillies, 4-3, in Philadelphia. A home run by Carl Furillo in the top of the ninth snapped a 3-3 deadlock and handed the Phils their fifth straight loss.

Ralph Branca, in his first start of the season, went the distance.

The St. Louis Cardinals blew a 5-2 lead to Pittsburgh but came back in the last half of the 10th inning to eke out a 6-5 victory when Red Schoendienst singled with two out and the bases loaded. Rookie Tom Poholsky went all the way to register his fourth victory.

Warren Spahn snapped New York's four-game winning streak with a seven-hitter as the Boston Braves defeated the Giants, 4-1.

FIFTY YEARS AGO
High School Commencement: Last night fifteen young ladies and four young men received their diplomas as graduates of the High School. This is the largest class that has graduated for years.

The board of directors and the teachers of the public schools occupied the left of the stage and the graduates the center. The College Orchestra furnished the music. The hall was packed and the room should be enlarged.

Miss Amanda Tawney gave the Salutatory and George E. Wierman gave the Valedictory.

The speakers from the graduating class were: Miss Hattie Irwin, Miss Mary Bream, Miss Cora Topper, John Gilbert, Miss Margaret Culp, Miss Mary Sheads, Miss Elsie B. Wentz, Garfield McAllister, Miss Nanna Kitzmiller, Miss Margie Hennig, Miss Phoebe Ogden, Miss Margie Trostle, Miss Stella Tawney, Miss Mary McAllister, George McCarney, Miss Esther Schriver and Miss Nellie Tate.

The "Remarks to the Class of 1901" were made by Rev. D. W. Woods, Jr.

Calvin Hamilton, President of the School Board, presented the diplomas.

Too much praise can not be given to Professor Hunter, the Principal, and Miss Cope, the Assistant Principal, for the success of the Commencement, as well as to the young ladies and gentlemen themselves.

I.O.O.F. Convention: The seventy-eighth session of the Grand Lodge of Pennsylvania is a thing of the past. The hundreds of visiting Odd Fellows, Daughters of Rebekah and their friends, who graced our town last week, have taken their departure. The Convention was probably one of the largest State gatherings of Odd Fellows that has ever assembled in the history of the Grand Lodge. There were more than a thousand Representatives here, beside several hundred Past Grand Masters and many additional members of the Order, who came with them to visit the battlefield, &c.

The address of welcome delivered by the Rev. T. C. Billheimer on the opening of the Grand Lodge was an able and excellent one.

The Odd Fellows Veteran Association entertained their many friends at their headquarters in Blocher's Hall, Carlisle street. Free lunch was served.

In the evening Memorial Services were held in Xavier Hall in memory of James B. Nicholson, Past Grand Sire, Grand Secretary of the Grand Lodge of Pennsylvania and Grand Scribe of the Grand Encampment.

On Thursday night the degree team of Mary Gettys Lodge, of this place, conferred the Rebekah degree, before an audience of more than three hundred people. The visiting sisters expressed themselves as highly pleased with the manner in which they were received and entertained by the local lodge.

On Tuesday evening a dance was given by Mary Gettys Lodge, at Tipton's Park, to the visiting Odd Fellows, D. of R. and their friends. The floor was crowded to its utmost capacity during the entire evening, the visitors intermingling with some of our townspeople tripping the light fantastic toe until midnight.

Marriages: Bentzel - Hoffman. — May 23, at the Mountjoy parsonage, by Rev. G. W. Minnick, David E. Bentzel, of Harrisburg, to Miss Helen C. Hoffman, of Cumberland township.

Straley-Decker. — May 23, at New Oxford, by Rev. Ferdinand Hesse, Franklin P. Straley, of New Oxford, to Miss Viola Decker, of Hamilton township.

Local Miscellany: The R. H. Thomas Memorial Band, of this place, held a cake walk at Devil's Den last Thursday evening.

The graduates of the High School received many handsome and useful presents. Miss Mary Sheads was presented by her parents with a Steiff piano, bought from Geo. E. Spangler, of this place.

INNER ASSURANCE

I attended a first private showing of a new engine which the Chrysler Corporation has just put upon the market. The exhibition emphasized the engineering triumphs of the Corporation, which was most interesting, but what attracted my eye most, and what I have thought about ever since, was the exhibition of a box of tools that Walter Chrysler made himself, and which inspired him to found the great concern that he did, and to build the organization that is now known around the world.

Walter Chrysler was born in a small town in Kansas, and he never knew what it was not to work. His father was a railroad engineer, and his ambition to become an engineer kept prodding him. He seemed to have that inner assurance that he could be anything that he set his mind and hand to. So he got a job that paid him but ten dollars a month. It wasn't the money he was after, however. It was the fulfillment of an idea that he had set his heart upon. I thought of this when I went through the great organization he had created, and recently when I stood and looked at the unique monument known as the Chrysler Building, in New York City.

That Chrysler box of tools made me think of the tiny first automobile that Henry Ford made, and which he showed to friends least with such pride. Within the breast of each one of these great Americans was the inner assurance that he could carry out his own individual plans and that it was the American way to leave him alone to become the useful creator that he did become.

No one else can do more than guess the course of our lives, but each one of us can resolve and determine to do certain things, and without fanfare, rise to heights that no one else but ourselves ever dreamed of attaining. It's that inner assurance that keeps whispering to us that we can do anything of which we are capable, and no one else can know how great that urge may be.

There are times that come to us all when we know we are right, or that we are undefeatable. And it is this inner assurance that inspires us to go ahead with our plans, even to move a mountain or two if necessary!

Tomorrow Mr. Adams will talk on the subject: "The Great Masters."

SLEEP MEDICINE

The sleeping medicine that's best is coming to the close of day. With no vain thoughts disturbing rest.

No loss of pride along the way. No pill that chemists can invent. Excels for sleep a day well spent.

It is a comfortable thought. To settle down without regret. Knowing you've toiled the way you ought.

And every obligation met. No fretting over blunders made; No promised letter still delayed.

There's no barbiturate can bring. So sound a sleep as peace of mind. And, looking back, remembering. No bitterness that lies behind.

A day well spent, through good or ill. Is better than a sleeping pill.

PUSH PROBE OF GI SCHOOL FRAUD

Harrisburg, May 29 (AP)—The commonwealth's chief investigator of the GI school frauds was called today to testify before a congressional committee here.

George Stedman, state police detective, said he is now awaiting word from the committee as to what it intends to ask him.

"I have all sorts of records and evidence and I am not going to sort them out until they let me know what they want," Stedman said.

The special House GI education investigating committee will open its hearing here on Monday with 21 persons ordered to testify.

Chairman Teague (D-Texas) said the subpoenas have been issued to state officials, owners of veterans' schools, Veterans Administration officials and others.

Stedman's principal assignment has been a probe in Philadelphia of the GI schools but he has also worked in other sections of the

Says Proper Diet Better Than Drugs

Los Angeles, May 29 (AP)—More important to health than all the wonder drugs ever discovered is moderate eating of a well-balanced diet, says one of the nation's greatest authorities on nutrition.

Dr. Charles Glen King, scientific director of the Nutrition Foundation, Inc., New York, and Isolator of Vitamin C, told an interviewer yesterday that the most fruitful discoveries in the future will come from learning more about the relationships existing between the already known food essentials.

"The strongest dietary trend among scientists emphasizes the need, not for some freak substances, but for diets containing a wide variety of foods," Dr. King said. "Outstanding research has proved that meat and fish are essential to provide man an adequate supply of the best quality protein. We also know that green leafy vegetables are needed to supply both vitamins and minerals. It's the variety of what we eat, rather than eating a lot of everything that's important."

Stedman said "So far as I know" the state is not going to conduct hearings or grand jury actions of its own. "It's a federal matter. They have the money, the manpower, and the time. We just don't have the men to do such a job," he said.

TEACHER TALKS
ON "MEMORIES"

Harvey W. Schwartz, teacher of the Young Men's Bible class of Christ Evangelical and Reformed church, was the guest speaker for the special Memorial Day program at Redeemer's Evangelical and Reformed church during the Sunday school hour on Sunday morning. Mr. Schwartz's address was entitled "Memories," and he related many incidents of American history to the group.

The program was arranged by the Men's Bible class, taught by A. C. Garland, and opened with a piano prelude, played by Miss Lois Ann Peeser. A prayer was repeated in unison, followed with a hymn, "My Country, 'Tis of Thee," sung by the group, accompanied by Miss Peeser, who served as pianist for the program. A responsive reading was led by Wilbur A. Bankert, the Sunday school superintendent. The scripture, Psalm 46, was read by Mr. Bankert. Prayer was offered by the pastor, the Rev. Frank E. Reynolds. A trumpet solo was played by Allen Shambrook, accompanied on the piano by Miss Peeser. Frank E. Stonessifer gave a reading entitled "The Red, the White, the Blue." The group then sang "America the Beautiful," after which the business period was held by the individual classes. The program closed with the group singing "Lead On, O King Eternal," and repeating the Lord's prayer.

Anniversary Communion
The 91st anniversary communion was held at Redeemer's church on Sunday. At the 10:30 a.m. service the choir sang the anthem, "Nearer My God, to Thee," Hughes, with Perree LeFevre doing the solo parts, accompanied by Miss Shirley Goebrecht, the church organist. A basket of cut flowers was placed in the church sanctuary in memory of Mrs. Laura V. Frey.

The pastor, the Rev. Frank E. Reynolds, announced that Children's Day will be celebrated with a special program at 10 o'clock Sunday morning, June 10. Sunday school will be held at the usual hour, 9:30 a.m., and all classes will go into the church sanctuary at 10 o'clock for the special program, which will take the place of the regular morning worship. The church worshippers are invited to attend this program.

The Rev. Mr. Reynolds also announced that a daily vacation Bible school will be sponsored by the Protestant churches of the community from June 4 to the 15. Classes will be held in the Littlestown Grade school building, East King street, from 9 to 11 o'clock each week day morning. Children from age four to 14 are eligible to attend.

Special S. S. Program
Henry J. Miller, supervising principal of the Dover consolidated school system, of Codorus, was the guest speaker at St. John's Lutheran church, for the special Memorial Day program held on Sunday morning during the Sunday school period. Mr. Miller discussed the regular Sunday school lesson, which was entitled "Babylonian Captivity," and explained how its teachings could be applied to present day living. Mr. Miller's daughters, Ladora and Sieglinde, offered several vocal duets.

The program was arranged by the Ever Willing and the Golden Cross classes, and was in charge of Mrs. Harry W. Badders, teacher of the Ever Willing class, and opened with the group singing, "America," accompanied on the piano by Mrs. Malcolm I. Heiser. Trumpet solos,

"God Bless America" and "There's A Star Spangled Banner Waving Somewhere," were played by Paul R. Snyder. The regular Sunday school lesson was read responsively, with Mrs. Badders as leader. Prayer was offered by Paul E. King, general superintendent of the Sunday school. The group then sang "America, the Beautiful," accompanied by Mrs. Heiser, followed with a brief business period for the individual classes. Mr. King spoke briefly, and he also announced that the Children's Day program will be a combined program by the various Sunday school departments and will be presented Sunday morning, June 10. The committee in charge of the Children's Day program is composed of Mrs. Kenneth D. James, superintendent of the Missionary department, and Fred W. King, superintendent of the junior department. The program closed with the group repeating the Lord's prayer in unison.

The Young Men's Sunday school class of Redeemer's Evangelical and Reformed church, taught by Dr. Richard M. Phreaner, will hold its monthly meeting on Wednesday evening at 8 o'clock, in the social hall of the church.

The May meeting of the Tuck-a-Bache class of St. John's Lutheran church, will be held Wednesday evening at 8 o'clock at the home of Mrs. Earl Brumgard, Littlestown R. 1. Mrs. George W. Streivig and Mrs. Alvin G. Groft comprise the entertainment committee for this meeting.

This evening at 6:30 o'clock, the

Eagles' team and Harry's, of the Littlestown Softball league, will play on the local playground. On Thursday at 6:30 p.m. the Mystic Chain will oppose Redeemer's.

Thursday from 4 to 5 and 7 to 7:30 p.m. confessions will be heard at St. Aloysius church, in preparation for the First Friday of the month. Friday, Holy Communion will be offered at 5:45 and 7 a.m., with mass at 7:30 a.m.

The Women's Guild of St. Mary's Evangelical and Reformed church will hold a bake sale on Friday morning beginning at 10:30 o'clock and continuing all day, at Boyd's store, East King street. Donations have been requested from all of the women of the church. Donations may be left at the home of Mrs. Paul E. Bankert, Mrs. Clinton Koontz or at the store of Wilmer J. Frock, in Silver Run; Mrs. Irvin E. Flickinger or Mrs. Melvin Hollinger in Union Mills, and Mrs. Oscar Wine, Westminster, or brought to Boyd's store.

All of next year's school beginners will register on Thursday and Friday at the grade school building, East King street. All children who will be six years old or before February 1, 1952, are to be accompanied by a parent or guardian, and it is requested that the following means of identification of the child be presented: the birth certificate, vaccination certificate, if any, and any other records of health or welfare of the beginner. The beginners of the Littlestown Joint school system will register from 9:30 to 11:30 in the morning and from 1:30 to 3 p.m. in

COLOR TV TO BE
LEGAL IN JUNE

Washington, May 29 (AP) — Color television programs by the Columbia Broadcasting system may be started legally in about a month, but it probably will be much longer before they reach much of the public.

The Supreme Court decided the legal phase of the question yesterday, but big obstacles remained in the way of any substantial switch of TV programs from black and white to color.

Meanwhile, black and white programs will continue for the some 13,000,000 present set owners.

There are two big obstacles to color TV:

1. Most of the major setmakers have expressed dissatisfaction with the CBS system, preferring instead the rival method developed by the Radio Corporation of America

the afternoon of each day. John H. Riley, principal of the elementary school; Mrs. Brenda B. Walker, the nurse of the joint school system, and the other teachers of the grade school will conduct the registration.

(RCA). Whether they will go ahead and turn out sets capable of receiving CBS color programs was uncertain.

2. The defense mobilization program is taking an increasing share of many metals which are essential to production of TV sets and broadcasting stations.

No sets to receive color are on the market now and it probably will be several months before more than a relative few are available. CBS officials in New York said they would shortly expend their color TV broadcast schedule in New York, and within a few months they expect to be producing a "substantial schedule."

"The Last Full Measure of Devotion"

—Lincoln

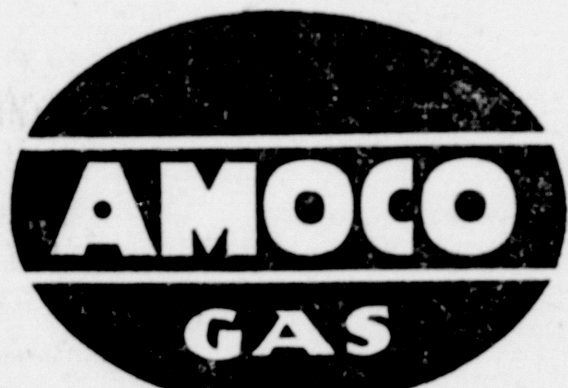

On Memorial Day when we dedicate the graves of those who fell at Gettysburg, we know from these dead that it is not possible to get something for nothing. We did not get our free America for nothing. We have had to pay for our freedom over and over again with the lives of many of the best of our sons who sleep on countless other battlefields all over the world. America is one of the few lands left on earth where an individual can walk with uplifted face and go his free way in pursuit of happiness. And that is because THEY PAID for us. No tribute we can pay is adequate to express the debt we owe to our heroic dead.

FACTS ABOUT DODDER CONTROL

Several readers have recently sent the editor specimens of a parasitic weed known as dodder. In most cases

the sender was unacquainted with this strange invader and confused it with chick-weed, wild cucumber and various other weeds. What is dodder? How can it be eradicated?

Dodder, as already indicated, is a parasite plant. It starts from a seed in the soil, just as most other weeds and domesticated plants. But soon after it establishes contact with a true plant it loses its root hold in the ground and thereafter lives solely on the life sap of its host. It spreads rapidly by seed. It prefers clovers, alfalfa and a few other legumes, although one species may occasionally break out in vegetable and flower gardens. The editor last summer was called in to identify a dense patch introduced in lawn seed. One species confines its attacks solely to alfalfa and one or two clovers, another infests a wide variety of food and ornamental plants.

Dodder is usually brought to the lawn, garden or farm in grass or other low-growing crop seed. It is easily identified by its tough, curling, threadlike, leafless stems which are usually yellowish or canary-orange in color. Most species produce white, pinkish or yellow flowers, followed soon by small seeds in abundance. Plants flower from early June until killing frosts arrive.

Among steps in prevention and

effective extermination are these gently suggestions:

So far as possible, do not use clover or alfalfa seed grown in dodder-infested regions or save home-grown seed from fields in which dodder is known to exist.

When livestock graze in pastures containing dodder, they should be barred from other fields where they are likely to spread viable seeds in their droppings. Similar precautions should be employed where animals are fed hay containing dodder.

All farmers and gardeners should study to identify dodder seed as well as the growing plant.

When a small patch of dodder appears, the tops should be cut back before seed is ripened. The litter should be saturated with kerosene or crude oil and burned over the site to destroy all ungerminated seed.

Even a few plants or individual specimens should be cut and burned, preferably before the bloom stage. Dry straw may be spread over infested spots to gain a more effective eradication by burning.

In overrun fields or portions of gardens where dodder is found, it is advisable to devote an entire growing season to sweet corn or field corn or other crop requiring frequent tillage. Because dodder does not feed on corn or other cereal crops, any of these makes excellent clean-up crops for the season.

If a legume crop is infested generally, it should be plowed under for green manure before the dodder seeds mature.

Most of the newer chemical weed killers are effective against dodder but have limited uses because the dodder is usually found on or near plants susceptible to injury by the chemicals.

Rotations which include any of the cereals are advisable to check wholesale outbreaks of this parasite.

Readers doubtful about the identity of this weed are invited to send specimens to the editor.

Stop Money Leaks — Are there any money leaks in your farm busi-

ness? You can find them by keeping complete farm records, and then studying them, declares Earle Moffit, Penn State extension farm management specialist. Stop the leaks before they stop you.

HAY AND GRIFFIE HERDS CAPTURE TOP CTA HONORS

Only one cow in Adams county herds produced more than 700 pounds of butterfat during the past year, according to the annual report of the county Dairy Herd Improvement association.

Hyland Ormsby Susie 2727420, four-year-old Holstein in the herd of Walter L. Hay, Gettysburg, was the top producing cow with a record of 703.8 pounds of butterfat in 305 days in milk. She produced during the period 16,602 pounds of milk.

The records showed that during the year the 761 cows owned by the dairy herd members produced an average of 8,663 pounds of milk and 334.6 pounds of butterfat. The value of the milk produced was listed as \$401.13 on the average, and the average cost of feed per cow was \$179.26 making the average profit \$221.87.

The records showed that the 24 farmers in the organization "culled" heavily during the year to wipe out poor producers and keep up the production per cow. Fifty-one of the animals were disposed of during the year because of low production, 30 were sold because of sterility, all told a total of 139 cows out of the total of 761 in the herds during the year was disposed of because of various reasons. The average number of cows on test was 600.45 during the year.

Compiled by Herbert C. Gilmore, the report shows the best herd was that of B. J. Griffie, York Springs R. 2, with his approximately 13 cows averaging 11,315 pounds of milk and 470.3 pounds of butterfat per cow over the year.

The records also showed that eight

cows in the county have produced over 3,000 pounds of butterfat in their lifetime and have received certificates from the Pennsylvania Dairymen's association. Five of those were in the herd of Joseph A. Stoner, East Berlin R. 2, including Beauty AK97624 whose final production this year gave her a record of 109,513 pounds of milk and 4,883 pounds of butterfat over a period of 11 years and 92 days. During this past year, her last in production, she produced 10,539 pounds of milk and 471.6 pounds of butterfat — still above the average for the year.

More Griffie Honors

The cows produced between 600 and 700 pounds of butterfat, both in the herd of B. J. Griffie, York Springs R. 2. Hartog 2805938 produced 14,810 pounds of milk and 651.4 pounds of butterfat and Fannie 1863642 put out 17,241 pounds of milk and 646.2 pounds of butterfat.

Twenty-four cows produced between 500 and 600 pounds of butterfat, 100 between 400 and 500 pounds, 208 between 300 and 400 and 187 were listed as below 300 pounds in butterfat production.

41 LITTLESTOWN SENIORS GIVEN THEIR DIPLOMAS

The Rev. Dr. J. Gould Wickey, executive secretary of the Board of Education of the United Lutheran church in America, was the guest speaker at the 38th annual commencement exercises held on Monday evening at the Littlestown Junior-Senior high school. Dr. Wickey was introduced to the capacity audience by Paul E. King, supervising principal of the Littlestown joint school system. He recalled that he was graduated from the Littlestown high school 43 years ago, and said that many changes have taken place since that time.

"We live in an age of change and disillusionment and despite the many changes and advancements in our public school system, crime continues to increase," Dr. Wickey said. "This is also an age of seeking, and the youth of today is asking for answers to questions that have never been answered. Many young people today have the knowledge, but do not know what to do with it, and the object now is to teach them,

both in facts and how to apply them.

Youth Must Have God

"We cannot link ourselves only with man, but we must have God," he said. "It is not how long we live, but how we live and our destiny of tomorrow is determined by our deeds of today. American youth has been seeking a perfect education, but first youth must find God and through Him will come fellowship. Christ teaches that the way to do things is by the way of love."

Dr. Wickey declared that "youth is seeking a message, a method, and a man to follow. The man," he said, "is Christ, the leader of youth." The program opened with the professional, "Pomp and Circumstance," by Sir Edward Elgar, played by the high school orchestra, under the direction of Mrs. Joan C. Wilt, of the faculty. The professional included: Mr. King, the Rev. Dr. Wickey, Charles I. Raffensperger, assistant county superintendent of schools; Luther W. Ritter, president of the Littlestown joint school board; Rev. David S. Kammerer, pastor of St. Paul's Lutheran church, who gave the invocation, and the members of the graduating class, led by the honor students.

Class Addresses

The class salutatorian was S. Mahlon Weikert, who spoke on "What We Are Prepared to Give Our Community." He opened his

talk by welcoming the visitors to the commencement, on behalf of the class of 1951. He explained the courses, the academic, general, commercial, industrial arts and home economics, offered by the Littlestown high school. Mr. Weikert further outlined the extra curricular activities, including sports, clubs and social advantages of the school. He closed by telling of the ways the students have been prepared to help their community and each other.

Doris C. Good gave the valedictory "What We Expect from Our Community." "After graduation one is no longer a student, but a citizen of the community and the opportunities which the community has to offer have to be considered, such as work, recreational sources, churches and further education." Miss Good closed by reading a poem and noted that her address was from the winning essay written by her for the local Veterans of Foreign Wars contest.

A vocal solo, "The House I Live In," by Lewis Allan, was sung by Robert J. Yingling, accompanied on the piano by Miss Lois Ann Peeser. The graduates then sang their class song, written to the tune of "You'll Always Be The One I Love," accompanied by Robert J. Yingling. The words of the song were written by Lewis U. Motter, Jr., and Allen L. Shanesbrook, of the class. The presentation of the class gift to the school was made by LeRoy W. Bish, Jr., president of the class of 1951. The gift, a check to be used toward payment for the amplifying system recently installed in the school, was accepted by Mr. King.

Honor Students

The announcement of honors and awards was then made by Mr. King as follows: honor students, Doris Catherine Good, Stanley Mahlon Weikert, Helen Elizabeth Rebert, Doris Valeria Hess, Eleanor Louise Bankert, Lois Lee Cluck, David Alan Mackley, Lewis Upton Motter, Jr., June Olive Breighner and Frederick Adrian Snyder. The awards of the Alumni association were: academic, S. Mahlon Weikert; commercial, Doris C. Good; home economics, Joanne E. Stites, and industrial arts, John I. Bucher, Jr. The faculty awards were: athletics, Francis I. Gerrick and music, Allen L. Shanesbrook.

The citizenship awards presented by the Ocker-Snyder Post No. 321, American Legion, were given to David A. Mackley and Doris C. Good. Frederick A. Snyder received the Bausch and Lomb science award. The members of the senior class participated in the essay contest sponsored by the Mason and Dixon Memorial Post No. 6954, Veterans of Foreign Wars, and the winners were LeRoy W. Bish, Jr., and Doris C. Good.

Diplomas Presented

Mr. King presented the class to the board of education, and Luther W. Ritter, president of the board, spoke briefly. He read a letter written by a member of the class of 1948 who is now fighting in Korea, in which he told of the need for education as a means of halting the advance of communism.

Mr. Ritter awarded diplomas to the following: Eleanor Louise Bankert, LeRoy Wilson Bish, Jr., president of the class, Richard Hahn Bowers, June Olive Breighner, Ruth Susanne Breighner, John Irvin Bucher, Jr., Jacqueline Annora Carpenter, Lois Lee Cluck, Janet Louise Crabbs, Wilmer Lee Dutterer.

SOFT DRINKS TAX WILL END ON THURSDAY

Harrisburg, May 29 (AP)—It's farewell on Thursday to Pennsylvania's pop tax.

The levy of one cent on each 12 ounces or less of bottled soft drinks and a half cent on each ounce of fountain syrup used in carbonated drinks expires automatically after four years of operation.

It will have brought in \$54,300,000 in revenue since first imposed in 1947. And even as the tax is about to go off the statute books by default, bottlers were still insisting in the courts that it was never legal.

Deputy Revenue Secretary W. H. Beachy estimated the revenue from the levy for the two years ended May 31 will have been \$27,400,000. That loss of revenue comes at a time when the administration is trying to raise \$163,000,000 in new taxes to balance a record \$1,220,000,000 budget for the two years starting

is composed of Luther W. Ritter, president, Preston Crabbs, vice president, John W. Schwartz, treasurer, Henry E. Waltman, secretary, Arthur R. Buehler, Elmer E. Furlow, David S. Little, Wilbur E. Mackley and George S. Worley.

Was GOP Pledge

Republicans pledged in their election platform last year that the levy would not be re-enacted. Gov. John S. Fine is insisting on carrying out that pledge.

Beachy said bottlers have cut inventories to a bare minimum to avoid as much as possible requiring the tax to be paid by consumers after May 31.

The tax will continue on all pop bottled up to midnight that date. If you buy a bottle of soft drink after May 31, it may still cost a penny more if the bottle bears a tax crown. That situation will continue until inventories of taxed soft drinks are consumed.

The soft drinks tax section in the Revenue department already has cut its force from 35 employees to seven. The remaining workers will balance the department's accounts with each of the 600 bottlers in Pennsylvania.

Detroit, May 29 (AP) — George A. Richards, owner of radio stations WJR in Detroit, WGAR in Cleveland and KMPC in Los Angeles, died early Monday at the age of 62. He had been charged in Federal Communications commission hearings

with ordering distortion of newscasts to fit his own political views. Richards' death from a disease of arteries came just two weeks after FCC attorneys had recommended that his licenses to operate the three stations be discontinued.
